

Equipment

3 Sterile Urine Jars

Information

Your Doctor has requested that you provide 3 mid-morning urine specimens.

NB: The first urine specimen of the day is unsuitable for this test and should be discarded.

A mid morning urine collection is preferred and should be collected some time between breakfast and lunch.

Food and fluids are to be taken, as normal. There is no need to fast.

Collection Procedure

1. Open yellow top container.
2. Fill the container with urine.
3. Screw top tightly onto container.
4. Take container to the nearest Laverty Collection Centre as soon as possible.
5. The sample must be collected and sent to the collection centre on the same day.
6. Repeat this procedure for the following two consecutive days.

Please telephone the Collection's Advisor on 02 9005 7121 if you are uncertain about any of these instructions.
